

# St. Ferdinand Parents Club Newsletter

The St. Ferdinand Parent’s Club (“SFPC”) commenced last year with a mission to create, organize, and promote fundraising activities and to engage & empower the school community and families through social events and volunteering opportunities.

As this was our first year, we established the goal of fundraising on behalf of the school and donating the proceeds from our fundraising efforts back to St. Ferd community. We believe these efforts further solidify our support of our schools’ mission and values that promote Catholic academic excellence to our children. We are very excited to say that last year’s fundraising efforts were an overwhelming success. We hosted seven fundraising events and, due to your generosity, donations, volunteerism and/or participation, we raised more than \$2,000. Such success would have been unthinkable without the support of our parents and faculty.

SFPC is very proud to share with you the distribution of those proceeds. The largest donation was given back to the school and its teachers – the foundation of our children’s education. We were also able to donate to various groups within the school and parish, such as Fish Fry Bunny Night, graduation gifts for our Pre-K/Kindergarten and 8th grade classes, and other appreciation events celebrating the faculty and staff. Lastly, we were able to support the terrific work and efforts our Room Parents have contributed to our students, thus far.

We hope for the 2023-2024 school year, we can contribute as much or more through our upcoming fundraising efforts. We are writing this memo to showcase the positive impact your participation has provided and express our deep gratitude for your continual support. On behalf of the SFPC, **Thank You!!!** We look forward to having another successful year.

Sincerely,

Monica Miller  
St. Ferdinand Parents Club President
